STUDENTS FEEDBACK ANALYSIS REPORT (2022-2023)

Positive Feedback on Curriculum in 2022-2023

Ramthakur College collected student feedback on the curriculum for the 2022-2023 academic year. The college used a five-point rating scale and custom-developed PHP code to analyze the data.

Key Findings:

- **Syllabus Content:** The majority of students (71.6%) rated the syllabus favorably.
- **Course Relevance:** Over two-thirds of students (68.7%) felt the syllabus units were relevant to their chosen course.
- **Elective Courses:** A significant portion of students (66%) rated the elective course offerings as highly relevant, with an additional 29.6% finding them good.
- **Workload Management:** Most students (64.3%) felt the syllabus size was manageable in terms of workload.
- **Assessment Methods:** Nearly two-thirds of students (67.6%) rated the evaluation scheme as satisfactory, with 45.1% indicating it was excellent and 22.5% very good.

Areas for Improvement:

- **Practical Application:** Only 59% of students felt the syllabus adequately emphasized practical learning and real-world application.

This feedback suggests that students are generally satisfied with the curriculum but highlights a potential area for improvement in connecting coursework to practical applications.
